## Profile

Experienced Engineer and Senior Mentor with strong mentorship abilities, and a demonstrated history of working in the education delivery industry in a remote environment and 4 years of experience in the industry. Skilled in Back-End Web Development in NodeJS and Express.js, Front-End Web Development in Angular, Full-Stack Development, Server Administration, Network Administration, Network Engineering. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team. Experienced with the latest cutting edge development tools and procedures.

## Projects

### HostMio

JANUARY 2022 – PRESENT

[HostMio](#) is a small but robust link shortener API. HostMio is meant to be quick, simple and easy to integrate. HostMio is built using NodeJS, ExpressJS and many other technologies under the hood, it is kept alive on main branch pushes using CI/CD through GitHub Actions. The current release allows for simple API calls without authentication as well as adding new links without authentication.

### HostMio Frontend

JANUARY 2022 – PRESENT

The [HostMio Frontend](#) is to display the latest and greatest features of the HostMio API in a graphical setting that allows users to experience how the API responds and works with the requests being made. HostMios Frontend is developed along side the API to make sure all features can be displayed in their entirety. The HostMio Frontend is built upon Angular 11 and kept alive using Cloudflare's latest pages system.

## Employment History

### Senior Mentor, Learning Source, Scottsdale, Arizona, United States

JULY 2021 – PRESENT

- Directly in charge of the team of mentors that support students in our Software Development, Cyber Security and Mobile Development programs.
- Responsible for training, coaching and guiding our team to further their understanding in the languages we teach.
- Lead video calls with mentors and other departments to better the experience for students.
- Aided in Curriculum Development and writing content to further student educational experience.
- Utilize Agile Methodologies to streamline workflows.

### Education Mentor, Woz U, Arizona, United States

MAY 2019 – JULY 2021

\*NOW LEARNING SOURCE\*

- Directly in charge of the progress of 30-50+ students at one time
- Responsible for mentoring, guiding, and teaching students in their current program
- Lead video calls with students for weekly code reviews to explain, teach, and provide real-life examples of how different aspects of programming works.
- Monitors Slack channel to help and advise any students that have questions regarding their course work or other related topics

## **Warehouse Specialist, Six Robblees Inc, Eugene, Oregon Area**

NOVEMBER 2017 – MAY 2019

Organized and counted over 3000 different products across our store and warehouse placements. Made sure orders were picked properly to be shipped out to customers in a timely manner. Nurtured clients to increase spending and buying habits with the company.

## **Parts Counter Representative, Knechts Auto Parts, United States**

AUGUST 2014 – JUNE 2018

I was trained in identifying auto parts from various automotive companies without needing to look in our computerized database. At Knechts Auto Parts I prided myself in being able to find creative solutions to mechanics needs by finding alternative parts to fit their need.

## **Education**

### **Full Stack Web Developer, Woz U**

JANUARY 2018 – DECEMBER 2019

In my time at Woz U, I was trained in NodeJS, Express.js, Java, Ionic, Agile Workflow, API ingestion using JQuery, Ajax and front end frameworks such as Angular and React.js.

## **Certifications**

### **Software Development Fundamentals**

PRESENT

Woz U
